EXECUTIVE SUMMARY

Java Full Stack Developer with hands-on experience in building backend systems using Spring Boot and RESTful APIs, along with frontend development using React. Developed real-time and data-driven applications through projects and internship experience. Built a basic AI-powered application using LLM APIs with prompt design and retrieval-based enhancements. Currently exploring AI-enabled full stack development to build more intelligent and scalable systems.

EXPERIENCE

Cognizant Technology Solutions, Chennai

Offline

Java Full Stack Intern

Jan 2026 – Apr 2026

- Worked on a full-stack retail application using **Java (Spring Boot)** and React, focusing on backend services and API development
- Contributed to designing RESTful APIs and modular backend services following microservices principles
- Participated in database design and explored caching techniques to improve application performance

Tata Consultancy Services

Online

Cyber-Security Analyst

May 2024 – July 2024

- Analyzed system vulnerabilities, performed risk assessments, and recommended mitigation strategies.
- Assisted in detecting, analyzing, and responding to cybersecurity threats and incidents.
- Worked with logs, dashboards, and incident reports to support enterprise systems

PROJECTS

AI-Based Knowledge Assistant

- Developed an AI-enabled application that generates context-aware responses based on user queries using Large Language Model (LLM) APIs
- Designed and refined prompt templates to improve response accuracy and consistency
- Implemented a basic retrieval-based approach to enhance responses using stored contextual data
- Built RESTful APIs using Spring Boot to integrate frontend with AI services
- Incorporated response validation and fallback handling to improve reliability

RetailIQ Customer and Inventory Management Platform

- Designed a system to manage **inventory, orders, and customer data** for a retail application
- Structured the application into different modules for inventory, order processing, and user management
- Worked with **MySQL and MongoDB** for storing and retrieving application data
- Focused on building a clear and modular backend design for better maintainability

Real-Time Chat Application

- Developed a chat application using **MERN stack (MongoDB, Express, React, Node.js)**
- Implemented real-time messaging using **Socket.IO** for instant communication
- Added features like user login, message storage, and typing indicators
- Designed a simple and responsive user interface for better user experience

EDUCATION

B.Tech in Information Technology Vardhaman College of Engineering, Shamshabad	2022 – 2026 CGPA: 8.53/10
Telangana State Board of Intermediate Education MJPTBCWREIS	2020 – 2022 Percentage: 96.7%
Telangana State Board of Secondary Education (10th) Telangana State Model School	2020 CGPA: 10/10

SKILLS

Languages: Java, JavaScript, C
Frontend: React.js, HTML, CSS
Backend: Spring Boot, Node.js, Express.js
Databases: MySQL, MongoDB
AI/LLM: LLM APIs, Prompt Design, Retrieval-Augmented Generation (RAG - basics)
Tools: Git, GitHub, Postman, VS Code
Concepts: REST APIs, Microservices Basics, Data Structures & Algorithms

CERTIFICATIONS

Programming in Java NPTEL (IIT Kharagpur) Completed a 12-week course with a consolidated score of 67% (<i>Elite</i>)	JanApr 2024
Smart Coder Certification Smart Interviews Achieved Global Rank 8822 and earned Bronze certification	2025
Employability Skills Job Ready (Wadhvani Foundation) Completed 113 hours of training focused on professional and workplace skills	Mar 2025
AWS Cloud Practitioner Essentials AWS Completed foundational training on cloud computing concepts and AWS services	Apr 2025

ACHIEVEMENTS

- Solved 150+ problems on LeetCode, improving problem-solving and data structures knowledge
- Mentored 120 students in C programming, helping improve their coding fundamentals
